

Nicole Beasley Ph.D.

VSee is a HIPAA compliant patient tele-medicine platform that I use to delivery therapy services via distance. I use this platform to ensure your medical information is handled with utmost care. If you have any concerns, please let me know. Below is a tutorial on how to use VSee and I think you will be surprised how easy it is to use even for the tech challenges among us!

To use VSEE just follow the steps outlined below

Step one You will get an invite from me sent to your email inviting you to join which will take you to the VSee sign up page (you can also click on the VSee logo at nicolebeasleyphd.com/welcome/remotely-telemedicine/)

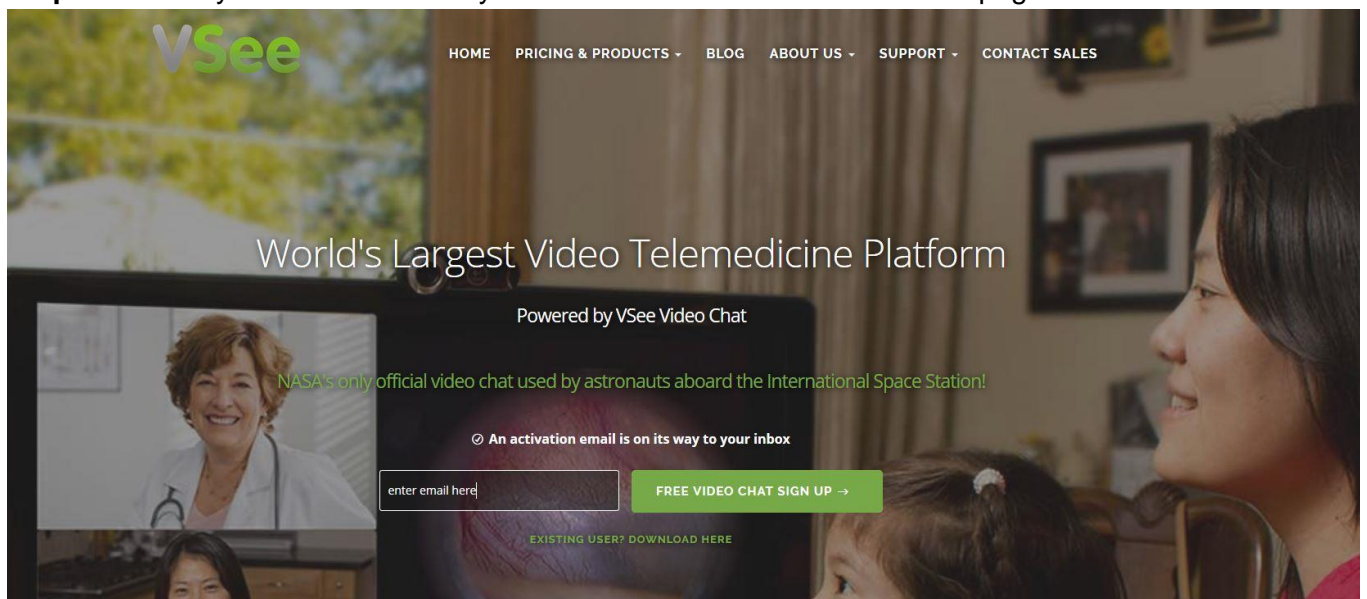

The email invite will look like this

The logo for VSee, with 'V' in grey and 'See' in green.

Nicole has been using VSee: a way to share ideas, work with colleagues and get things done faster. With VSee you can make free group video calls and screen share with the click of a button.

[Accept Nicole's Invite](#)

Step two Once you click on the link you will be directed to the VSee home page

A screenshot of the VSee website's home page. The page features a navigation bar with links for HOME, PRICING & PRODUCTS, BLOG, ABOUT US, SUPPORT, and CONTACT SALES. The main headline reads "World's Largest Video Telemedicine Platform" and "Powered by VSee Video Chat". Below this, there is a testimonial from NASA stating it's the only official video chat used by astronauts on the International Space Station. A sign-up form prompts users to "enter email here" and offers a "FREE VIDEO CHAT SIGN UP" button. There is also a link for "EXISTING USER? DOWNLOAD HERE". The background of the page shows a woman on a video call and a young girl looking at a screen.

Nicole Beasley Ph.D.

Enter your email address in the box on the home page and click “ Free Video Chat Sign up”
You will receive a confirmation email in your inbox

By registering, you agree to the [Terms and Conditions](#) set out by this site, including our [Cookie Use](#).

REGISTER

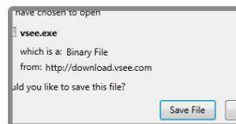

You can click on [Terms and Conditions](#) if you wish to read their terms and conditions in full.

Once you click register, you will be redirected to a page where you can download the app.

Download

Step 1

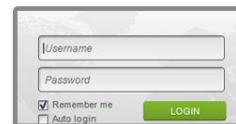

Click on "Save file" when prompted.

Step 2

Double-click the "vsee.exe" that just downloaded to run the installer.

Step 3

Click "Run" when prompted. When VSee launches, log in and start connecting with your friends.

VSee should start downloading within seconds. If it doesn't, please [click here](#).

Follow the instructions on the page to download the app and then run the installer. You may need to approve access due to your security settings.

Once you finish installing it is always a good idea to reboot your computer.

You will then be able to see the app at startup or when you open it.

When it is time for your appointment open the app on your computer.

When you log in the first time, It will walk you through setting up your video and audio.

Setup Your Video and Audio

Setup your webcam

Do you see yourself?

CyberLink Webcam Splitter

Setup Your Video and Audio

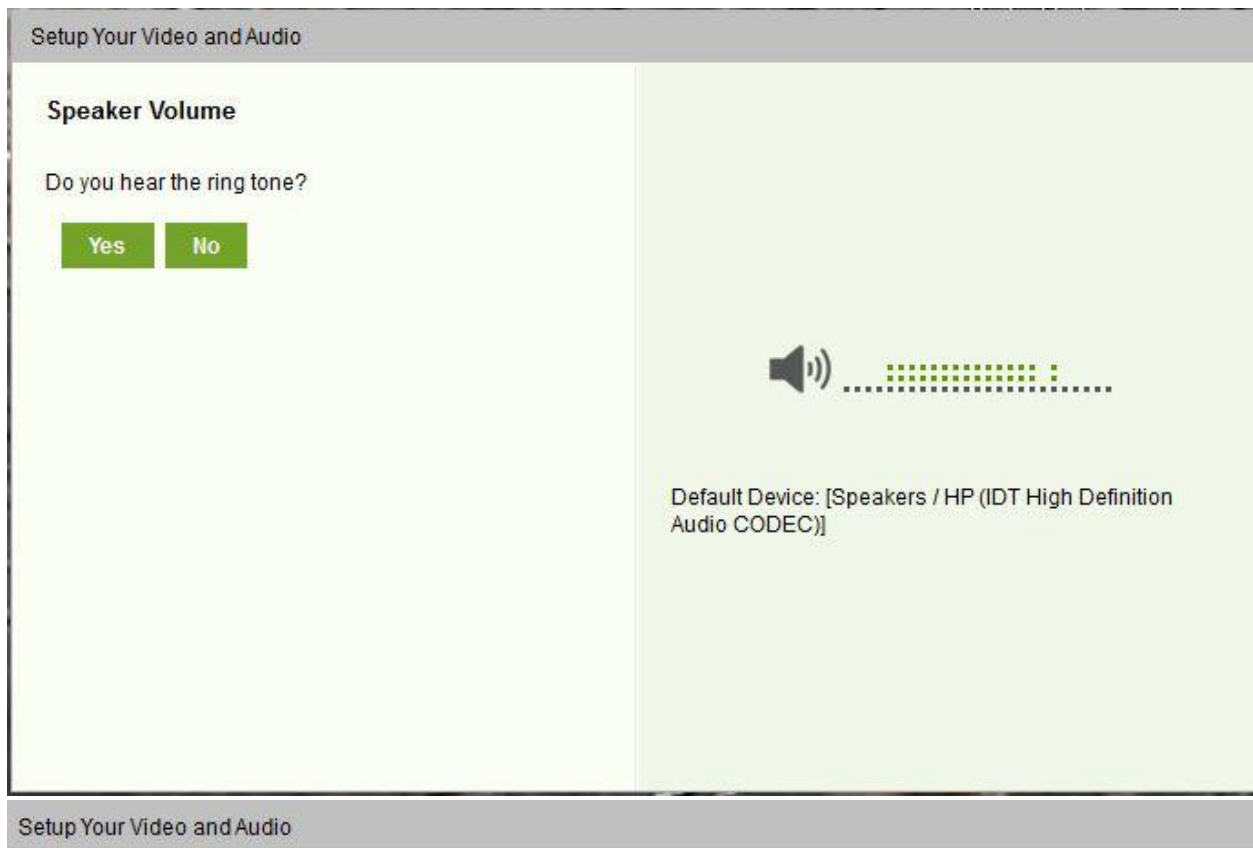

Speaker Volume

1. Turn up your speaker volume.
2. Press "Play test sound"
3. Listen for the sound

Default Device: [Speakers / HP (IDT High Definit

Nicole Beasley Ph.D.

Setup completed

Webcam: CyberLink Webcam Splitter

Speaker: Default Device: [Speakers / HP (IDT High Definition Audio CODEC)]

Microphone: Default Device: [Internal Microphone Array (IDT High Definition Audio CODEC)]

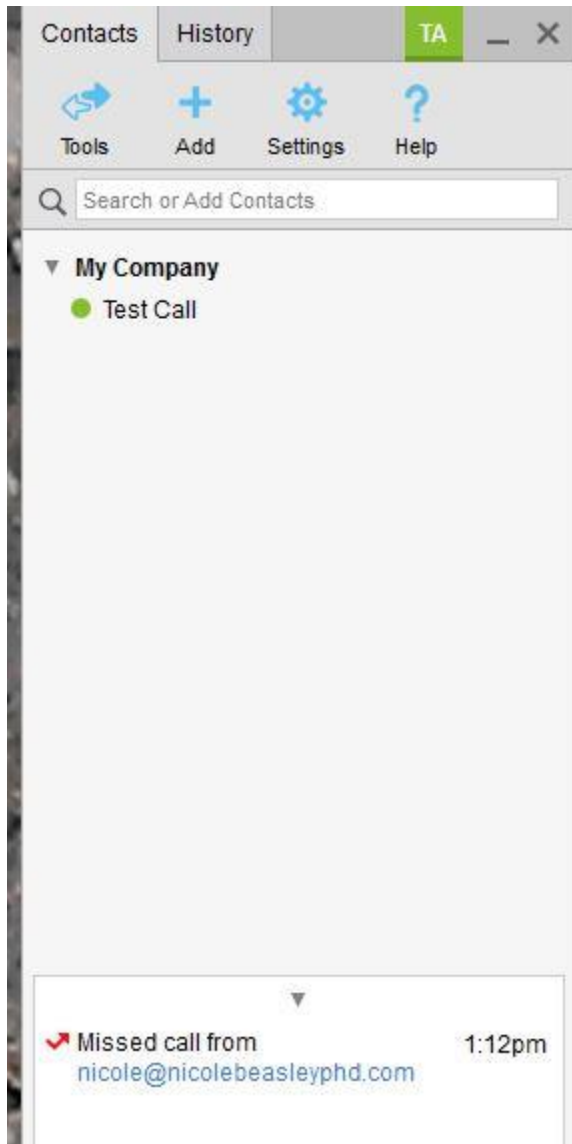

Done

Remember to click the done button.

Vsee will now show on your desktop/start menu or programs menu.

At the time of your appointed call - you should open VSee by clicking on the program from your desktop, toolbar or programs menu - when it is open - it will look like this:

Nicole Beasley Ph.D.

At the appointed time you will see my face come up on your screen on my webcam and it will give you an option to accept the call from me.

Click on accept and we will have our call!

If you have any difficulties I can be reached on my cell number at 415-336-5343.
